Zobel Chemie GmbH

Zowo-plast® is fully certified to meet the world's toughest performance standard for PVC coatings.

Zobel Chemie GmbH of Germany has announced the appointment of ProKolor® as its exclusive UK distributors of their renowned Zowo-plast® coatings product range; Europe's leading, high-performance water-based coating system specifically developed for application onto PVC building components.

We are delighted to announce the appointment of ProKolor® as our exclusive UK distributors, stated Harry Zobel, General Manager of Zobel Chemie GmbH. With the long coatings industry experience of the founders and our shared values and service ethics, we believe we have found the perfect partners in ProKolor® to bring our technology and service model to the UK market.

Mr Zobel added: We have seen a growing level of enquiry from the UK for our PVC coatings products, and believe that UK demand for coloured coatings for PVC is now starting to catch-up with the rest of Northern Europe. We are therefore delighted to transfer our proven PVC decorating solution to the UK and look forward to a long and mutually successful future serving our new UK customers.

The founders of ProKolor® Mike Blowers and Graham White, added: We formed ProKolor® because we passionately believe that coatings provide a superior decorating solution for PVC construction products and our partnership with Zobel, means that we can offer the highest performing and most ecologically sustainable products available. Our vision is to work closely with our customers to help them adopt coatings as their preferred PVC decorating method and thereby to move to a leaner and more responsive production model that will fulfil all of their customer expectations for a limitless choice of colour.

Zowo-plast® has a track record of application in over 40 countries around the world of over 10-years, and is fully certified to meet the world's toughest performance standard for PVC coatings; rating as a 'superior coating' to the stringent AAMA 615-13 performance standard. Manufactured in Germany since 2005, Zowo-plast® is available in a limitless range of colours and a variety of textures and finishes, and is guaranteed to deliver exceptional performance in the harshest of conditions.
