

Technical Data Sheet

ZOBEL Anti-Block Agent

Product Description

Product Type

Silicone free, after cleaning with degreasing detergent overcoatable anti-block agent as a spray system on the basis of a transparent emulsion.

Area of Application

To avoid blocking in the rebate area by not yet cured coatings. Spray rebate area slightly with Anti-Block Agent before attaching the sashes.

Technical Data

Base of Binder

Wax emulsion

Color

Colorless

Delivery Form

400 ml spray can

Processing Instructions

Application Method

Spray system

Shake briefly. Apply a very thin coat only. For better spreading, you may wipe with a cloth afterwards. To maintain functionality, store container in an upright position. If a surface, treated with a release agent, is to be repainted, clean surface with a degreasing detergent in the prefield.

Drying Time

(20 °C / 50% relative air humidity)

Depending on the substrate and spray amount dust- and touch-dry within ca. 5 minutes.

Drying time depends on applied quantity and ambient conditions. Low temperature and high humidity retard drying. Always ensure adequate temperature and air exchange.

Additional Information

Hazard Information

F+ Extremely flammable
N Dangerous for the environment

Minimum Shelf-Life

12 months cool but free of frost in the closed original packaging. Protect from direct sunlight and temperatures above +50 °C. Store in upright position.

Safety Instructions

Always read label and product information before use. Please observe the usual precautions during processing and storage. For safety-relevant data and instructions on disposal refer to the Material Safety Data Sheet.
